

**TESTIMONIAL
FOR DR. PETERSON
& STAFF**

I cannot recommend Dr. Robert Peterson, and his excellent staff, more highly. After 2 c-sections and a hysterectomy, I am no stranger to abdominal surgeries. Yet, my experience with Dr. Peterson and team was absolutely the *"best seen to date"*. From the very first meeting, the professionalism and genuine care about my needs was prevalent. They listened to my concerns, asked pertinent questions, and Dr. Peterson was very candid about which procedures would best answer my needs. I needed to rebuild core abdominal muscle strength to help alleviate lower back deterioration. He knew exactly what to do! I went into surgery calm, clear about the procedure, and what to expect during recovery. Follow-up visits were equally concise and continued to reflect the team's authentic compassion and concern for me and about us co-achieving the best possible results.

There's a reason why Dr. Peterson was voted as *"Best Doctor"* in the cosmetic surgery field for 2009...and I now I have personally experienced it! If you're considering a cosmetic procedure, don't hesitate. Put yourself in the capable, professional hands of Dr. Peterson and his incredible team.
